Tarpaulin House™

Most trustworthy

ALUMINIUM TENTS

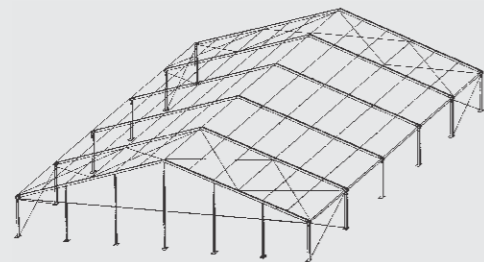

54 years of trust and tradition in the industry

Tarpaulin House is a manufacturer, fabricator and supplier of high quality superstructures. Since initiation in 1963 by Sri. Dwarkadas Lilladhar, Tarpaulin House has come a long way from producing canvas tarpaulins to producing and supplying tents for semi-permanent applications.

Quality, customer service, honesty and innovation have been our mantra since the very beginning. This has resulted in building a phenomenal reputation and goodwill in the industry. We are regular suppliers to the defence forces, government organisations, event management companies, decorators and resorts for various applications.

Tarpaulin House is the official supplier of SUMO aluminium tents in India. SUMO aluminium tents are reliable and are made using high quality and scientifically designed components. Being one of the pioneers in the industry, SUMO has an experienced team of trained technicians and state-of-the-art manufacturing facilities which ensure defect free products.

The main tent framework is manufactured from hard pressed aluminium alloy (6061/T6) and the rooftop and sidewalls are made from water proof, flame-retardant double PVC coated polyester tarpaulin (DIN 4102-B1, M2). The carefully designed and chosen materials ensure that our tents can withstand extreme winds, rains and sun. The clear span of our tents range from 10m to 60m, while its length is theoretically unlimited.

Span (m)	Side Height (m)	Centre Height (m)
10	3	4.8
12	3	5.2
15	4	6.5
18	4	7.0
20	4.5	7.7
25	4.5	9
30	5	9.5
40	5.5	12

Applications

- Wedding tents • Exhibition tents
- Music events • Disaster relief shelter
- Warehouse and Industrial storage facilities
- Outdoor promotions and conferences
- Semi-permanent party plots

Multiple benefits for you

The advantages we have to offer

Reliability

It is with pride that we claim that we are most reliable. Our 50 years in this Industry has taught us that consistency, timely delivery, and transparency in dealings are very important. It is a practice with us to deliver what we promise at all times. Our dealings are transparent and fair.

Experience

We have over 50 years experience in dealing in Aluminium Domes and have a string of satisfied customers. We have trained technical people for after sales support. We also stock essential spares that makes sure that our buyers do not get stuck in their work at any time.

Availability of wide range

We offer Domes from 10m span to 60m span. These are available in medium and heavy sections to suit your need and are also offered in different side heights.

All aluminium

The connectors used in SUMO are all aluminium. Except for the load bearing sections, all parts are aluminium. This makes it light and strong.

Right price

And finally and most importantly, our price is very competitive. We are the most reasonably priced supplier for Aluminium Structures adhering to all the quality aspects of the Structure.

Tarpaulin House offers you TRUST like nobody else does.
